Find & correct the problems BEFORE the surveyors arrive!

Save \$ by purchasing the SPECIAL OPTION PLANS.

Focused audit now available on CD!
Maximize the use of focused audits by periodically changing the focused items and concentrating on the areas of greatest concern. The popular OASIS Quarterly Audit tool is now available on disc in a word processing document so that you can change the focus quarterly by changing the focus items.

BONUS

As part of the CD purchase, you will receive an Excel spreadsheet to calculate the percent of error found on the focused audit. This allows comparison over time and helps identify needed education.
